

ONE SINGLE PILL GAVE GREAT RELIEF

FOUR BOXES CURED HIM

"I suffered from Gout for several years, and tried numerous remedies and doctors' prescriptions without getting any relief, it being chronic. After seeing about Gout, and as it is a well known fact that the kidneys are the organs for the Kidneys, I decided to try Gits Pill. One single pill gave me great relief. I have now taken four boxes of Gits Pill and find myself completely cured. I am now in excellent condition in weight, clear eyes, fresh color—more strength and vigor. This is what Gits Pill did for me."

J. H. POWELL
Gin Pill will do the same for you. If you have any trouble with your feet or hands, or if you suffer with Pain in the Back or Ribs. Try them before you buy them. Write to us for free sample. The Royal Canada Limited, Dept. N. U., Toronto, for free sample. Then get the regular size and send your desire—91 box, & the \$2.50.

In and Out

"live within your income," was a maxim uttered by Mr. Carnegie on his seventy-seventh birthday. This is easy; the difficulty is to live without it.

Where the Good Ones Were Put

One of Uncle Sam's bright young men attached to the embassy at London, England, asked me recently what town who was evidence of the opinion that there is no better model than Uncle Sam for the world to follow, everything in its place?"

On one occasion as he was walking down the main street of this country, he asked him to point out the places of interest. In a moment the driver said:

"There, sir, is Lugg's Inn, where they have a little little hotel."

"There's Parliament," Quies, where the Queen sits and the people across the way." Then there's Westminister Abbey, where they bury the good."

Very many persons die annually from strokes and kindred sunstroke complaints who might have been saved. If you can't do no delay in getting a bottle of Dr. J. D. Kellogg's Dyeless Cure, the simplest and easiest way to effect a cure. Those who have used it say it acts promptly, and thoroughly subdues the pain, and disease.

Transposed

When Tommy had the sunstroke, and the doctor came, said he, "Are you in pain?" and quickly sobbed, "No, sir, the pain's in me."

Minard's Liniment, Cure, Ointment

"Gent." is an abbreviation which has become quite common in the dietary, as a witness appearing before Judge Wrightson once told to his Honor, "I am a gentleman of the decent character of the defendant, and am not what you would call an independent gent." That was an "independent gent." An independent what?" interrupted Judge Wrightson, looking at the reporter. "Oh, understand something short of a gentleman, isn't it?"

A Chinese policeman, determined to rescue a woman whose husband is said to be from the attic of a burning house, climbed three flights of stairs to the roof, and, after a long search, no trace was made by the medical examiner. The woman, Mrs. Charles O'Brien, was then brought to the hospital. Her husband, John O'Brien, 31, a carpenter, was found dead in a room on the third floor. He had been drinking heavily, and was found lying on the floor, unconscious. His wife had been trying to rouse him, but he did not respond. She was taken to the hospital, where she died.

In helping others active physicians prefer to lose their own lives. Of all professional men their lives are the shortest. Between the ages of 45 and 50, physicians die on an average to one clergymen.

MARVELOUS' CURES OF SKIN ERUPTION

Four Children Constantly Scratching,
Nearly Tore Limbs Off. Cured in
a Month by Curcuma Soap
and Ointment

Two of my daughters and two of my sons were suffering from very bad hives and their hair cut off so as to prevent it from spreading.

They were constantly scratching, and the skin became so sore that they could not even sleep. I had to take them to a doctor, and he prescribed a medicine which he said would stop the hives.

I had to take them to another doctor, and he prescribed a medicine which he said would stop the hives.

I had to take them to another doctor, and he prescribed a medicine which he said would stop the hives.

I had to take them to another doctor, and he prescribed a medicine which he said would stop the hives.

W. M. U. No. 805

FINAL CROP ESTIMATE

Bulletin issued by Department of Agriculture shows Much Val-

ue in Crop. The Census and Statistics Office of the Department of Agriculture has issued a bulletin giving the following figures for the production of the area, yield and value of the principal crops in 1911. The field crop area is shown to have occupied last year a total area of 1,717,000 acres, calculated at the average local market prices, amounting to \$665,712,000. The grain and oilseed area is 1,690,000 acres, of which 1,172,000 acres were wheat in Ontario and Alberta, and 518,000 bushels of the value of \$185,667. The total production of wheat in bushels of the value of \$21,461,000. Oats occupied 292,000 acres, and had a value of \$19,812,000, barley 1,400,000 acres, yielded 49,126,000 bushels of the value of \$11,700,000. The combined area of flax and hemp was 1,120,000 acres, and flax and hemp was 2,481,000 acres, and had a value of \$1,461,000. Hay and straw produced 15,489,000 tons and a value of \$16,124,000. Alfalfa a record of which was taken for the first time in 1911, occupied an area of 101,811 acres with a yield of 17,921,000 bushels of the value of \$19,700,000. The combined area of corn, maize, millet, sorghum, grain and flax was 1,177,000 acres, and had a value of \$1,461,000. Powdered crops including fodder corn, hay, and alfalfa showed an acreage of 1,177,000 acres, and had a value of \$15,489,000 tons and a value of \$16,124,000. Alfalfa a record of which was taken for the first time in 1911, occupied an area of 101,811 acres with a yield of 17,921,000 bushels of the value of \$19,700,000. The combined area of corn, maize, millet, sorghum, grain and flax was 1,177,000 acres, and had a value of \$1,461,000.

Alfalfa a record of which was taken for the first time in 1911, occupied an area of 101,811 acres with a yield of 17,921,000 bushels of the value of \$19,700,000. The combined area of corn, maize, millet, sorghum, grain and flax was 1,177,000 acres, and had a value of \$1,461,000.

Wheat—a crop to be old or new growth, it must yield to Holloway's Cure, the simplest and best cure offered to the public.

MOONEY MAKES THE CRISPEST,

CREAMIEST BISCUIT.

"LET MOONEY DO IT!"

Thousands of people all over Western Canada are letting MOONEY make their biscuits.

They have found that MOONEY'S BISCUITS are just a little crispier, just a little creamier, just a little thinner, just a little more appealing.

MOONEY'S BISCUITS are just good enough to take the place of the product of the home oven! Use

MOONEY'S PERFECTION SODA BISCUITS

Made in the big sanitary factory in Winnipeg.

HER GIFT TO MILES

A Christmas Present That He Didn't Expect.

By FRITZ KORNMEYER.

When the night opened the door at eight o'clock in December, with a few flakes of snow, followed the first snowfall of the year. Miles, who had spent years in the service of the Garrison, who wanted a retraining school for the young, was situated by her over to the east. When he had put aside his things and turned in, she again said:

"Even you, Marthe?"
"Oh, well, I'll take it back if you don't like it," she hastened to say, "but I have given my word, and I'm a trifle tender-headed." "My dear, I wanted to tell you about some plans for tomorrow, but how can I talk Christmas."

"What you are up to, I can't state! You're always secret, Charley!"

"I've been thinking," answered Miles slowly, "that perhaps you may have been right. The room—may have taken in a few more, but I have not understood them a little." He rose, took a few steps around the room and then sat down again.

"I recurred to me after I had sent them that as they would arrive that evening you might not take them as well as I did, and so I went to bed."

"Mr. Miles, you are a good man. Shall I tell him you are here? He will come."

"'Til go up. He's expecting me."

At the sound of the name he hesitated at his friend's name.

"Sorry to keep you waiting, old man; ready in a few minutes. Hit down and make yourself comfortable, won't you?"

Cancer took the proffered chair and smoked in silence a few minutes while his hostess prepared the meal.

"I had a rather peculiar talk with Miles today," began Cancer in a tone that was not intended to stop him. "I happened to meet him on the street, you know, just as I was going into the shop. He had such a few words with me, though, that I thought he needed joining off."

"Marthe, I am sure, will bring his eyes with an expression of infinite tenderness."

"She has made a difference, Charley, all the different in the world. I have been wondering for weeks what you would like for a Christmas gift, and I have no idea."

"There was a quiet little catch in her voice, but she was too brave." And then Cancer added, "I think you need most of all—her hand excepting her heart."

Miles had a faint smile on his face, and she smiled at him gently.

"'Tis now, dear, boy, hello! I was to wait in front of the door, and Nell had been married in June. The family will all be here tomorrow, even Alain from Paris. For miles, I am sure, a quiet wedding—no luxury, no gifts—but I thought that now, when you were in town, which I think you need most of all—her hand excepting her heart."

"She is a good girl, but I don't know enough about her affairs to be able to judge her in my own case. Men who are in love always talk glittering generalities, when they haven't a thing in mind but their own interests."

"Yes, but I suppose he thought you didn't know enough about his affairs to be able to judge him in your own case. Men who are in love always talk glittering generalities, when they haven't a thing in mind but their own interests."

"Well, I said it depended largely upon which girls had been brought to expect. I had never heard of a girl coming in or out of town, but I do when his prospects changed during his engagement. Miles said that to the sort of girl a man would really care for, and I said, 'Lord, the sort of girl a man would really care for! I told him a man's likely to care for what kind of girl he is caring for, so far as that goes and I said that if I were to care for a woman, I would care for a Christian woman. He responded rather wearily that most girls of our acquaintance already had everything they wanted."

"Which is quite true," put in Garrison.

"Oh, yes, true as it goes, but you know very well that there are girls who think her lover has searched the town over for something out of the ordinary. Now, we may know that nothing is to be expected from a Christian girl that we wouldn't just as soon be without, but women don't know it and never will, and so they go on, ever so joyous, attachment every year."

"I don't believe Marthe's just the sort of girl I care for."

"Oh, I don't mean that she care particularly for what Miles may give her, if I may touch on such matters, but I mean that she has a spirit, a spirit expectant. By the way," Cancer broke off, interrupting himself and glancing toward the open door, "I see Marthe comes the hall when you come up. Is that?"

"Yes, she's Marthe's room, but I think she's Marthe's room. That young Garrison and Cancer went out."

Miles thought Marthe looked at him now, but she did not. She had held him by the hand, but her eyes were bright, and when she spoke there was a touch of gaiety in her voice.

"I like snow for Christmas, but the urge. You must be nearly frozen. I like snow for Christmas, but without this freezing temperature." She had a smile on her face, and when she crossed to a stand where huge roses were nodding over the edge of a chalice planter, gathered them in her arms.

"How do you always manage to find the most perfect blossoms for me, Charley?" the girl asked, smiling. Her face was red in the snow. She raised her head for an answer, but the

sun was lighting late into the fire. She left the stage door.

"I want those close to us this evening. Don't you think they should be?" "Why, you're trying me for half pastures, as it were, Charley. Or are you already under the influence of tomorrow and kindly disposed toward me, even now?"

"Even you, Marthe?"

"Oh, well, I'll take it back if you don't like it," she hastened to say, "but I have given my word, and I'm a trifle tender-headed." "My dear, I wanted to tell you about some plans for tomorrow, but how can I talk Christmas."

"What you are up to, I can't state! You're always secret, Charley!"

"I've been thinking," answered Miles slowly, "that perhaps you may have been right. The room—may have taken in a few more, but I have not understood them a little." He rose, took a few steps around the room and then sat down again.

"I recurred to me after I had sent them that as they would arrive that evening you might not take them as well as I did, and so I went to bed."

"The existence of the bridge is of comparative recent knowledge to the public, though the Indians in that region have known of its existence for such a work of nature. Two of the leading scientists of the country, Dr. George M. Fairchild and Dr. W. H. Dall, have for some time

published the results of their researches on the bridge.

A WONDERFUL BRIDGE.

Longest Natural Bridge in America. Not in the World.

The largest natural bridge in America, not in the world, is located in the Canadian Rockies, about two miles from the state boundary line, and is known as the George Natural bridge. Its total length between the high water course and the low water course is 35 feet, while the span is 30 feet. From the top up to the span is 140 feet. The bridge is built of small water courses that during the long hot summer months divide down to a narrow stream.

The general explanation given is that volcanic action, occurring at some distant period of the world's history, caused the bridge.

The existence of the bridge is of comparative recent knowledge to the public, though the Indians in that region have known of its existence for such a work of nature. Two of the leading scientists of the country, Dr. George M. Fairchild and Dr. W. H. Dall, have for some time

published the results of their researches on the bridge.

SKIRT NEWNESS.

A Smart Model in Maple Effect.

SKIRT IN BLACK AND WHITE SILK.

Fashion prefers lightfulness in the silk under skirt. In many instances the knitted nylons are used in preference to skirts of any kind.

For the last few seasons, however, the striped silk pattern has been in the fashion. The striped silk pattern seen in the illustration is cut on the newest black and white in the smart, color scheme.

Unquestionable.

In the last I saw a male muscled up of your boy, madam, but he'd succeed better as a woman with me.

Then there's going to be trouble, unless you take your coat off away from the small of my back."

"Rinkie, you and I would get along all right if you'd come to some neighborhood," said the boy. "When you go home, you please tell me when you get home, that she ought to wash your face at least once or twice a week?"

For the Table.

Quite the latest and most approved appointment for the table is a coffee set of glass and copper.

COFFEE SET IN GLASS AND COPPER.

The illustration shows how very convenient and good looking is the new design.

Shadow Lace Veil.

The new shadow lace veiling is very effective, and it is a great improvement in the world of fashion. This big, heavy, and rather stiff lace is made of a combination of the fine white trade and the coarser, thicker, and more durable white mesh which are very trying to all complexion.

The lace is made of open silk mesh which is very fine and delicate, and it is a good lace for embroidery.

The lace is made of open silk mesh which is very fine and delicate, and it is a good lace for embroidery.

YOU BUY CITY HUNTER.

The city dog is now taken by the dog and hundred dollar gun.

And the city dog is now taken by the dog and hundred dollar gun.

To have a dog is a sin.

It does not hit a barn door.

If it should hit a barn door,

it would not know how to buy.

He surely looks courageous.

But it's a dog that means at him.

He'd up a tree quick score.

With it will be the cock stave.

What's the cock stave?

What's the cock stave?</p

The final annual concert and "at home" of the Coleman Choral Union will be held in the Eagles Hall at Coleman, on Thursday evening, March 21st. A lengthly programme of choruses, quartets, etc. will be rendered, after which a dance will wind up the affair. See the advertisement in another column.

Eighty-five per cent of headaches are the result of eye strain. Are you a troublous sufferer? If so, consult S. L. Taube, optician-surgeon, who will be at Watson's Drug Store, Frank, March the 10th; Higgins' Drug Store, Blairmore, Wednesday, March the 20th; Park's Drug Store, Coleman, Thursday, March the 21st. If there is anything wrong with your eyesight, don't fail to consult him. All work definitely guaranteed and done. Make your appointment now.

The volume opens with two chapters on an introductory nature and general conception of the power of water as a means of development. The relation of water to agriculture, mining, navigation, domestic supply, etc., so forth, is dealt with, and the principles to be used in the interpretation of water-power data are stated and discussed critically.

A chapter is devoted to the water-powers of the provinces to which the general features of the provinces are given.

Water-power sources, development

and economic development are discussed and an outline given of the law whereby powers are granted or leased to private individuals or

EDITORIAL NOTES

With the addition of the mammoth plant of the Key Stone Cement Company, Blairmore will be a vibrant life of industry and prosperity. Well may the new company encourage them in their plan, it will not only benefit them, but every individual in our town.

Judging by the bulk of correspondence being received each week by the provincial treasurer of the town, Blairmore is being watched from all quarters and her importance is every day becoming more and more real.

Now that the council are placing a limit to obstructions of our beautiful and modern thoroughfares, we would suggest that they employ a "scissors man" to clip off a foot or two of the many wide-headed shades which will soon be on the way, or "in the way."

People of Frank are fully aware now a report published in the Lethbridge Daily News of the 12th, which stated that the Turtle Mountain was beginning to slide, such report is not true and I hope it will be exposed.

We are glad to say that the Amundies System has not been abolished. In transferring the Branch to the Post Office Department under the administration of the Postmaster General it is believed that a wider

area than the old one will be covered and that the service will be much improved.

The government Annuity Fund is to be abolished, and the money will be used for other purposes.

We are glad to say that the Amundies System has not been abolished. In transferring the Branch to the Post Office Department under the administration of the Postmaster General it is believed that a wider

area than the old one will be covered and that the service will be much improved.

The full information regarding the various places on which Annuities may be purchased may be obtained at the Post Office or on application to the Superintendent of Annuities, Ottawa, who, on letters on Annuities business, do not charge postage.

The Royal Canadian Mounted Police have been sent to the Crows Nest Pass to guard the gold shipments.

Remember the date of Taube, the Eyesight Specialist's visit to Watson's Drug Store, Frank, March the 10th; Higgins' Drug Store, Blairmore, Wednesday, March the 20th; Park's Drug Store, Coleman, Thursday, March the 21st. If there is anything wrong with your eyesight, don't fail to consult him. All work definitely guaranteed and done. Make your appointment now.

MAIN STREET

BLAIRMORE, ALBERTA

Farewell to Mr. S. Lessar

The Calabash Club, the home of the white young men of Frank, was the scene of a very enjoyable event on Saturday evening, March 16th, when a large crowd of Frank's business men and the most popular citizens of the little town gathered to honor in their own way one of its members, Mr. S. F. Lessar, who left on Monday of this week to seek his fortune in other parts.

A presentation of a fine club bag, fitted with the most elaborate gold silver toilet fixtures and with the engraving "To Sam, from the boys of Frank, March 9th," was made. Mr. Bougros, as chairman, read the address, while Mr. Taylor presented Mr. Lessar with the gift. Mr. Lessar's surprise and gratitude were so great that words alone could not begin to express his appreciation; but neverfless, in a few well-chosen words, he thanked the boys for their many kindnesses.

Spectators testifying to his good qualities and character and regret at seeing Mr. Lessar leave Frank, were ably given by Messrs. Lang, Windsor, Clearline, Tompkins, Taylor, Manuel, Seville, McHugh, Ryan, Schell, Tompkins, McHugh, Shantz, McLean, McRae, McPhee, Dohney, Ferguson, Joe Tompkins, Holmida, Hughes, Whalley and McLeod. After a sumptuous repast the crowd enjoyed the evening at cards until midnight, when all joined in singing "Old Folks at Home," "Goodbye, my darlin' boy," "Good fellow" and "And I bid a fond adieu and good night."

**A RARE OPPORTUNITY FOR
LIVE INVESTORS****Lake City**

Is the name of the western terminus point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Crox's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chalets and numerous flocks, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for hunters who desires to outrival the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold quartz, coal, iron and pulp wood.

Crox's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure ways will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

J. M. CARTER

REAL ESTATE AUCTIONEER

Phone 161

Blairmore, Alberta

Town of Blairmore.—Carried.
Sinclair—Farmer, for second reading.—Carried.

Young—Sinclair, for first and second readings of by law No. 10. For the establishment of a Pound.—Carried.

Reading of by law No. 11. to Medical Health Officer, was referred to receive a special reading.

The reading of the several by laws occupied much time, but no amendments were introduced.

A plan showing the plans of the new Keystone Cement plant was shown to the council and their opinion asked thereon. If the plans as laid out, or recommended were acceptable to council, work of erecting this mammoth plant would proceed forthwith. Council would consider the matter and will do all possible to assist in the establishment of this new industry.

Council adjourned at 11:40 to meet again on Wednesday, March 20th at 8 p.m.

The Rocky Mountain Cement Company

Will Enlarge Plant To Double Capacity—New Machinery To Arrive

The Rocky Mountain Cement Co. have all preparations made to double their present capacity and produce by May 1st 1000 barrels of portland cement per day.

The large rotary kiln \$8,100 feet is already here, mills and five brick are now on the road and will be here in a week or ten days.

The installation of the new equipment will take probably

six weeks to complete. The approximate expenditure will be in the neighborhood of \$15,000 and the work of installation will be under the superintendence of Mr. C. J. Pegg, the local manager.

These improvements will make the Rocky Mountain Cement Co., one of the largest industrial concerns of the province. We are glad to see this company continuing its

progress. It started two years ago in a small way under the direction of Mr. W. J. Budd, developing as it was able. Today it is one of the great assets of the town of Blairmore giving steady employment to a large number of men, and its present increasing development reveals careful and thorough going management. Such companies shall always be welcome for Blairmore—they help our town.

Smith—Sinclair. That two meetings six months (second fourth Monday) be held in future.—Carried.

Sinclair—Chestnut. That the mayor and chairman of finance committee be committee to arrange for contract with Mr. Budd, and disposal of money raised on debentures.—Carried.

Communications were read from the Winnipeg Rubber Co., re quotations on hose and other equipment for fire fighting truck. Kerr, Laird & Kerr re debentures from Blairmore Board of Trade. Chamber of commerce for offer of council chamber for board's meetings; from Thomas Edge, re debentures, his clients offering 4% p.c., or \$12,000 from McLeod & Gray, in reply to secretary's communication relative to right of the council to issue license to Avenue hotel, stating that council voted at liberty to issue such extra debenture as the master and corporation desired. Edge, C. H. & Sons, debenture holder, May & Jones from McLeod & Gray, in reply to secretary's communication relative to payment of municipal affairs, to single tax law, from W. J. Budd, offering to my difference between \$30,000 and the full amount, favoring sale of debentures, and from A. E. Gibson.

The following accounts were read, passed by the different committees and ordered paid: Leg. Ass't account to by laws, No. 1 and 2, '22, salary J. P. Irwin, for half month's service as chief of police; salary W. L. Sher, \$80; light account, Rocky Mountain Cement Co., '22; office light \$4; Alberta Livery \$22, C. H. Erickson \$20 for repairs to sidewalk on Victoria street; for thawing water pipes \$5; for criminal code \$15.15; Lethbridge Stationary Co. \$35 for opening books \$62; Bartlett & Barrett \$22.50; Blairmore Hardware Co. \$6.00; Provincial Board of Health, Medicine Hat, for expenses incurred in connection with the Master of Health, '22; Crown Nest Flour & Feed Co. for ton of flour \$10.50; Woods & Steel \$6. Mar. 1st, P. Nunes \$15; H. G. Bligh \$23.75; H. T. Lloyd for work in connection with light system \$24.00, and several other small accounts.

Council was informed of the intention of the West Canadian Colleteries to build a sidewalk along Victoria street west in front of their subdivision. Council voted to build crossings where necessary.

Councillor Sinclair noted steps were being taken for the removal of the many old buildings that obstruct some of the

sidewalks, whether installed or not.

Councillor Smith asked if council intended giving notice to water works for connection with the new sidewalk.

Councillor Sinclair gave notice that he would be at the next regular meeting to introduce a bill for compelling all property owners to pay water rates, whether installed or not.

Councillor Smith, on behalf of the light committee, reported that the Rocky Mountain Cement Co. had ordered their

new machinery to arrive in a week or ten days.

Councillor Sinclair reported that the new machinery would be ready in a week or ten days.

Councillor Sinclair reported that the new machinery would be ready in a week or ten days.

Councillor Sinclair reported that the new machinery would be ready in a week or ten days.
